

Training School 2023

L I M A S S O L

The third training school organized by VascAgeNet took place in Limassol, Cyprus from May 8th-10th 2023.

29 early career researchers from 15 countries attended. 62% were women, mean age was 29 years. Attendees were a mix of biomedical engineers (38%), physicians (31%) and basic scientists (28%).

Program

The training school covered a broad range of clinically relevant topics in addition to practical (hands-on) and social sessions. 100% of attendees agreed/highly agreed that the topics were of interest to them.

Feedback ★★★★★

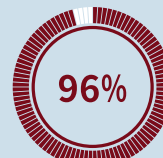

The school was a great success, with 83% of those who provided feedback giving it a 5/5 rating!

"This VascAgeNet training school was fantastic: interesting sessions, a friendly environment and an unbeatable location. The program was highly appreciated by students and trainers and I hope that what was learnt prepared these young researchers for a wonderful career"

Dr. Andrea Guala

Would recommend the school
to colleagues

Would apply
again

**The social activities were, as always, instrumental for
interaction and connections**

Thank you to the attendees, speakers and the training school committee for this successful event. A special thank you to Training School co-ordinator Andrea Guala, local organisers Andrie Panayiotou, Steilios Latros, Panagiotis Kouis, Evi Kinn and the VascAgenet Core Group members, Christopher Mayer, Elisabetta Bianchini and Rachel Climie.
